Schedule Your Virtual Eye Care Appointment

To encourage social distancing in our community, Eyes In Disguise offers virtual eye care through EyecareLive!

Simply follow the steps below to schedule an appointment and receive expert eye care from your eye doctor, safely from your home via smartphone.

When to use EyecareLive

- Urgent conditions like red eye, pink eye, red eyelid, stye, irritation, injury and other medical eye issues
- Vision consultations
- Monitor conditions remotely
- Send and receive secure messages from your eye doctor

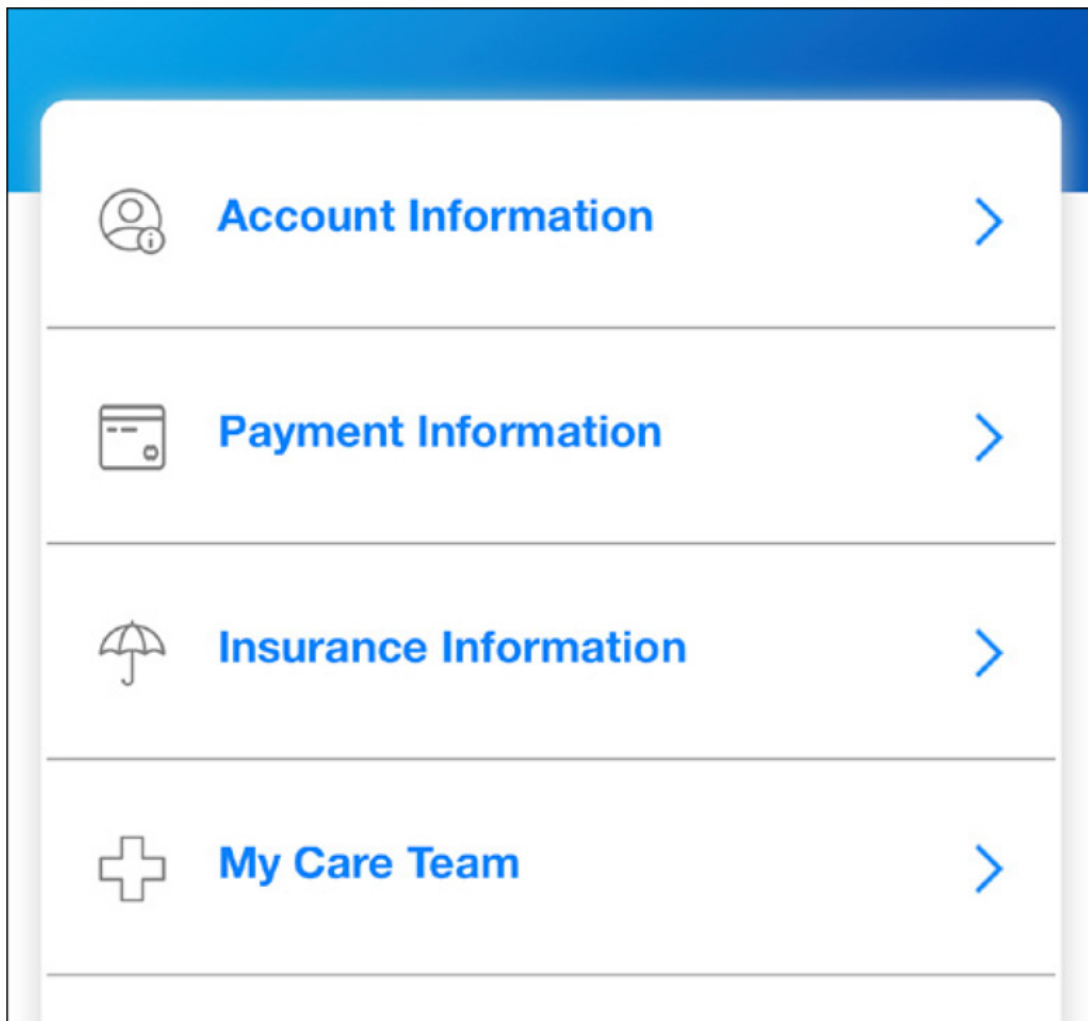

Download the App

Scan the QR code. Register for your account using your phone number or email address. Allow access to the camera and microphone. Available for iPhone 6S or higher and Android 9.0 or higher.
